

PP Provides Many Good Services

(Response to Michael cont'd.) <https://www.plannedparenthood.org/.../190118> - Please note PP's business plan is to increase its share of abortions - not decrease them.

Josh, to have a logical conversation we must deal in facts. Your statement that Planned Parenthood provides pregnancy services like pregnancy care centers is untrue. Planned Parenthood will not provide a pregnant woman with diapers, formula, ongoing pregnancy care, parenting classes, car seats, etc. Check out their websites. The truth is there. Also, **the number of non-abortion services provided at Planned Parenthood clinics decreased in nearly every major category during the 2017–18 fiscal year.** Planned Parenthood's provision of contraception decreased by 80,000, cancer screenings by 45,000, and other "women's health services" such as well-woman exams and prenatal services decreased by 13,000. **The only category of services that significantly increased was abortion procedures and tests/treatment for sexually transmitted diseases.** This information is from Planned Parenthood's own annual report. <https://www.plannedparenthood.org/.../190118...> Planned Parenthood is about abortion - not pregnancy care...

I am glad that you have a relative that was helped by Planned Parenthood's cancer screening but as the evidence from PP's own annual reports reveal cancer screenings are decreasing at PP, they are an

extremely small part of what PP does and cancer screening can be performed by many alternative medical facilities that are not in the profiteering business of ending a human life.

WHEN DOES  BEGIN?

Peggy [REDACTED]

...You can't to reiterate no-factual (at best, lies at worst) re: statistics on PP services. All you & your ilk care about is keeping pregnant persons & all persons who can or ever could potentially become pregnant under the control of fascists who deny rights to any except cis-gendered straight males.

Peggy, your accusation that those of us who defend the value of ALL lives are only promoting dominance by "cis-gendered straight males" is simply name-calling. Some of the unborn lives saved will in fact become queer females. For something as important as the defense of our foundational Right to Life let's please stick to evidence backed discussion...

...It is the Washington Post who indicted Planned Parenthood's statistics and called PP's statistics "misleading". We are simply providing their analysis as evidence. The Washington Post is a reputable, mainstream legacy newspaper. Please read the Washington post article.

<https://www.washingtonpost.com/news/fact-checker/wp/2015/08/12/for-planned-parenthood-abortion-stats-3-percent-and-94-percent-are-both-misleading/>

Michael, abortion is definitely big money. In its 2019-20 annual report, Planned Parenthood alone reported \$1.6 billion in income and over \$2.0 billion in net assets. In 2020 Planned Parenthood reported an excess of total revenue over total expenses of \$110.5 million. This does not include all the revenue created by other abortion facilities. Planned Parenthood does about a third of the nation's abortions.

WHEN DOES  BEGIN?

Anonymous

Crisis Pregnancy Centers coerce women into having babies they don't want.

That's the difference between abortion clinics and crisis pregnancy centers. **When women visit an abortion clinic in the event of an unexpected pregnancy, they are not given the informed consent they deserve.** They are not informed of the severe emotional and physical effects of abortion. The abortion industry is not pro-women. The **abortion industry exploits women for financial gain.** According to Planned Parenthood's Annual Report 2019-20, its excess of total revenue over total expenses was \$69.7 million. <https://lozierinstitute.org/fact-sheet-planned.../> **Planned Parenthood is a profit-making business, whereas crisis pregnancy centers are true non-profits** providing their long-term assistance and care at no charge. I encourage you to locate your local pregnancy care center and examine for yourself the care and material support provided there.
