Sidewalk Assistance Needed More Than Ever

Since the Texas Heartbeat Law was passed, abortions have dropped by about 50%. More than ever, pregnant women are looking for alternatives. We need to be outside abortion facilities directing them to real help through area pregnancy care centers. **We must go to the sidewalk where hurting people are.**

Guest speaker, Lisa, is a dedicated LifeFirst volunteer and the Spring, TX program director for Sidewalk Advocates for Life. She faithfully ministers outside area abortion facilities with unrivaled boldness and compassion and teaches others to do the same!

Not only has Lisa helped moms choose Life, she helped Texas choose Life when she testified before the Texas Legislature on behalf of the Heartbeat Bill.

Lisa's personal testimony and stories from the sidewalk will inspire you. Her practical advice will prepare you to share help and hope with moms who feel out of options.

The meeting starts at 7 pm, but please come early and enjoy dinner from one of the food trucks on site. Enjoy fellowship with other pro-lifers and come meet Lisa!
