7:00–8:15 pm

*(Please join us at 6:30  
for food & fellowship)*

### Location:

KC Event Center  
2655 FM 1488  
Conroe, TX 77384

Just as every birth story is unique, so is every adoption story. Our October guests, Jason and Kristin, will share the very special story of Madison, whom they fostered as a newborn and adopted at 7 months old.

Madison is the fourth of five biological siblings. So when Madison was placed with them, they immediately became connected to a much larger family!

The parents of the five siblings have taken advantage of the opportunity to establish and nurture relationships between the families. Often this is not the case and siblings become permanently separated.

Don't miss this unusual story that illustrates one beautiful, creative way adoption can be a remarkable path!
